No fee is due if this site was not a RCRA large quantity generator (LQG). Refer to page iii of the instruction booklet for the definition of a RCRA LQG. Do not include non-hazardous waste in your calculations. This current fee is based on the amount of hazardous waste generated during the calendar year 2003, not the amount shipped. To calculate the amount generated, use section 1, box F on the GM form. Convert this figure to tons and calculate the total for all of your GM forms.

_____ is the number of tons of hazardous waste generated at this site during the calendar year 2003. Round to the hundredth's place. For example: 85.105 tons should be rounded to 85.11 tons.
